July 16, 1957.

Mr. John Sampson
7940 Pacific
Omaha, Nebraska.

Dear John:

So sorry not to have answered your letter originally however as you say it was apparently misplaced locally or enroute. It's interesting to know our sky wave is evident in Omaha. Most of our BCL reports have come from the New England states. Your copy checks with our program schedule which has been the same for some two years.

Best regards and thanks for the report

Sincerely,

Bob Meador
